SUSPICIOUS TELEPHONE CALL

A NW member had a call from "General Home Insurance" who seemed to know all about their washing machine i.e. the make and model, and also said that their insurance was overdue the previous week and they could make a great renewal offer of £78 for the year if the NW member took up that offer that day.

The homeowner said she will call them back after talking to her husband and the Company gave their number 01273 286216.

When the lady did have a chat with her husband, he looked up their home insurance details and in fact the insurance for the washing machine was with Domestic & General (*and not General Home Insurance*).

However the policy was up to date and direct debit was paid every month and the policy expired in December (*not July*).

So the husband telephoned Domestic & General who confirmed the arrangements with the homeowners and when told of the telephone number they said it was probably a scam.

The telephone number was looked up under Google and the "history" of those who have also experienced receiving calls from this number are clear to see.

So please remember and tell all your family, friends and neighbours **NEVER** take up an offer over the telephone without checking the company first and of course your current policy details.

ADVICE ON HOW TO SECURE UPVC DOORS.

We do not apologise for giving this information again as there are STILL too many people who have experienced house burglaries due to Upvc doors not being locked properly.

PLEASE - It is essential that if you have a UPVC door that you double lock it. Your UPVC door will be vulnerable if it is just shut not double locked.

Also do give this advice to those you know have UPVC doors.
