Anderson Wellbeing

Does your child suffer from anxiety? Do they often have reasons to avoid going to school?

Do they have anger problems that get in the way of friendships and family life?

Suppose there is a simple solution to these and other problems.

Peter Anderson has spent a life time working in schools, over thirty as headteacher of four large primary schools. Peter has also worked as a councillor and coach sharing a simple but profound understanding of how the mind works with children as young as five, with teens and with adults. By helping children see how they are creating their own moment to moment experience, it releases them from the problems that keep them stuck.

Peter will work with parents/carers and their child in a safe, relaxed environment and through a variety of ways share this understanding.

It is quite usual for children to need only three or four sessions to completely transform. The child's natural resilience and well-being increases which allows the child to skip off into life with a much lighter heart.
